East Midlands Digital D&T Support Centre at NTU,
Maudslay Building, Nottingham Trent University, Burton Street, NG1 4HH.
Telephone: 0115 8486161 & Email: edud&tadmin@ntu.ac.uk
Centre Leaders:
Sarah Davies—Senior Lecturer in Design and Technology Education and SpeedStep Accredited Trainer,
sarah.davies@ntu.ac.uk
Andy Cooper—Consultant and ECT Accredited Trainer, andy.cooper@ntu.ac.uk

Above example of Year 9 work from Heanor Gate Science School and work by designer Leah Buechley

Course content

During the day— Design and Technology department teams will be introduced to technical textiles and surface mount programmable PIC technology. Schools will take away materials in order to develop school project work.

The morning session will focus on the creation of surface mount LED circuits using textiles and conductive thread. In the second half of the day delegates will assemble more advanced circuits and develop PIC programmes.

The outcomes will be published via our digital design and technology website at www.digitaldandt.co.uk.

Course Registration
